JOHN H. COZZENS.

The American Art-Union,

In the City of New York, was incorporated by the Legislature of New York for the promotion of

The Fine Arts in the United States. It is managed by gentlemen who are chosen annually, by the members, and receive no compensation.

To accomplish a truly national object, uniting great public good with private gratification at small individual expense, in a manner best suited to the situation and institutions of our country, and the wants, habits and tastes of our people, the Committee have adopted the following PLAN.

Every subscriber of five dollars is a member of the Art Union for the year, and is entitled to all its privileges.

The money thus obtained, (after paying necessary expenses) is applied,

First.—To the production of a large and costly Original Engraving from an American painting, of which the plate and copyright belong to the Institution, and are used solely for its benefit.

Of this engraving every member receives a copy for every five dollars paid by him.

Members entitled to duplicates are at liberty to select from the engravings of previous years.

Whenever the funds justify it, an extra engraving or work of Art is also furnished to every member.

Every member also receives a full Annual Report of the proceedings, &c., of the Institution.

Second.—To the purchase of paintings and sculpture, by native or resident artists. These are publicly exhibited at the Gallery of the Art-Union till the annual meeting in December, when they are publicly distributed by lot among the members, each member having one share for every five dollars paid by him.

The business of the Institution, out of the city of New York, is transacted by Honorary Secretaries, who receive and remit subscriptions, and deliver to members in their vicinity the Reports, Engravings, and works of Art. They are forwarded at the expense of the Institution.

The income of the Art-Union the last year was \$22,285 dollars, and one hundred and forty-six paintings, varying in price from \$15 to \$500, were distributed by lot among its members, and each member also received a copy of a large line engraving, "Sir Walter Raleigh parting with his wife on the morning of his execution."

members of this year, two large engravings, the *Jolly Flat-bonnet*, to be engraved by Doney, after the picture by Bingham, and the *Sibyl*, to be engraved by Casilear after the picture by Huntington, of both of which, every member will receive a copy.

The annual meeting and distribution will take place this year on the 21st day of December.

It is very desirable, that the dues of the members should be paid early in the year, that the Committee may make their purchases at the best advantage.

Subscription and payment may be made to the subscriber, Honorary Secretary for Newport and its vicinity.

THE undersigned having in their houses a new Improved Cooking Range, constructed by Messrs. We would notice more particularly the Oven, which, by its construction, furnishes a uniform heat, and the baking is performed with less attention and more perfectly, than in any Range or Stove that we have ever used. In a word, it contains many advantages, and consumes a small quantity of fuel.

PENCIL SKETCHES OF TRAVEL.

LETTER V.

AMERICAN HOUSE, Buffalo, June 3d, 1847.

MY DEAR SIR:—

We arrived safely here last evening, about 8 o'clock. The arrangements at the depot are most excellent, and better than I have ever before seen on any route. There is no rushing and crowding, as with us at the East, but everything moves on with a systematic nicety that relieves one of all that is unpleasant in travelling. The hackmen are not allowed inside the depot, and consequently you do not run the risk of having your eyes put out with their long whips. A rope is stretched across in front of the baggage-car, and no one is allowed inside of that. Just back of this rope, at proper distances, are signs containing the names of all the Hotels in the city,—and as the baggage is passed out of the cars, you deliver your check, call out the name of the Hotel you wish to stop at, and your baggage is placed in front of its sign, where it remains as safely as if in your own possession,—and, in fact, rather more so. You then pass to the street, and call the name of the House you are going to, when the Porter makes his appearance, and conducts you to the carriage, and you are taken up free of expense. As soon as the baggage is all out of the cars, it is passed from the windows to the respective Porters, who convey it safely to its destination. By the time you have taken tea, it has all arrived, and is taken to your room, as soon as you point it out.

The American House, and is kept by Mr. Hodges, a Rhode Island man, formerly of the Franklin House, Providence. Everything is in admirable order, although the fashions of the table are rather different than at our large Houses at the East.

I am very much pleased with the city in all respects, and it might be made one of the most beautiful in the Union. Many of the houses look old, but there are a number of very beautiful residences, and the public buildings are fair. The streets are very wide, and everything has a business-like aspect. The location of the city on the Lake is such as must necessarily make it one of vast importance. It is the great thoroughfare of the whole West, and the daily transportation of passengers and freight up the Lakes is immense,—in fact, it is almost incredible, and one must witness it with his own eyes, to believe it.

The docks are perfectly wedged with steamboats and vessels of various kinds, while barrels of flour and other merchandize lies about in such profusion as to render them almost impassable.

On my way here from Albany, I passed through a truly delightful country, and saw some of the finest farms in this or any other part of the world. The land is rich, and produces great crops with but little labor, in comparison with Eastern land. The season is backward, and some apprehensions are felt for the wheat crop, which, in many parts of the West, has been winter-killed. The Railroad between Albany and Buffalo is the worst that I ever travelled on. It is the flat rail nearly the whole way, and very uneven, and one's nervous system is very much deranged, from fear of accidents of some kind, such as being thrown off the track, or the projection of a snake-head through the bottom of the cars. The road is in such bad order that very frequently the cars will roll like a ship in a heavy sea.

On the way from Rochester, we passed through a number of very neat little villages, but none of them are as beautiful as those which I have before spoken of.

There are vast numbers of German settlers in and about Buffalo, and it is amusing to go down on the wharves, and in certain parts of the city, and hear them chatter with each other, apparently happy and in the full enjoyment of all that they could desire.

There is great excitement here now in regard to flour, and heavy purchases are being made, at very large prices, in anticipa-

pation of the continued high rates, in consequence of the steamer's news, which is now being received by telegraph.

I shall start directly for Niagara Falls, and on my return this evening, take one of the steamers up Lake Erie, and shall probably stop a short time at Cleveland.

Yours always, Florio.

THE JACKSON MONUMENT.—The site determined upon for the Jackson Monument at Washington is a beautiful plot of ground north of and immediately fronting the Presidential mansion. At a meeting of the committee on Thursday, it was decided that the foundation shall consist of one solid block of rough stone, estimated to weigh at least one thousand tons! This can be procured in the vicinity of Georgetown, delivered and put in place for \$25,000. The design of the Statue is after the model of that of Peter the Great. Eminent artists—Powers, of Florence, and Mills, of South Carolina—have been requested to furnish designs, and state the peculiar kind of bronze best calculated for the magnificent memorial, so that Congress may be applied to for the old cannon taken during the present war, to be thereto appropriated.—This enormous stone will be laid, with appropriate ceremonies on the 15th of March next, the birthday of the illustrious Chief.

SOCIETY OF BROTHERLY LOVE.—The Rev. Thomas H. Stockton, of the Methodist Protestant Church of Philadelphia, has recently set on foot, and is now actively engaged in establishing a new benevolent order, to be known as the Society of Brotherly Love, and the design of which is to

objects sought by our benevolent and beneficial associations. These associations are to be formed of church members, and are intended to make provision for any exigency that may happen their members in life, and to which all are exposed. The regulations of the society embrace many new features calculated to promote its usefulness.

TONNAGE OF THE UNITED STATES.—The tonnage of the United States on the 30th of last September, amounted to 2,562,084. The tonnage of England is 3,000,000; of France, 590,000. All the other powers of the world have less than France. The tonnage of the United States has doubled since 1830, and in fifteen years more it will probably far exceed that of England or any nation in the world. The most of the vessels making this amount of tonnage are built in the States of Maine, Massachusetts, New York, Pennsylvania and Maryland.

TO THE BEAUTIFIERS OF THE COMPLEXION.

SURPRISING EFFICACY. My Eau Divine De Venus and Nymph Soap, composed of an eastern botanical discovery of surprising efficacy for rendering the skin soft and fair, as well as imparting a delicate roseate hue to the complexion.

As a creator and conservator of that most distinguishing charm of female loveliness, a transparent fair skin, Jules Hauel's Nymph Soap, or Eau Divine De Venus, may be said to exert an almost magical influence. Composed for the most part of mineral balsamic plants, to the utter exclusion of all animal admixture, it is distinguished medically, for its extremely bland, purifying and soothing action on the skin; and by acting on the pores and minute secretory vessels, expels all impurities from the surface, always every tendency to inflammation, and, by this method alone, effectually dissipates all redness, tan, pimples, freckles, sunburn, and other unsightly cutaneous visitations, so inimical to female loveliness. Its use will change a most bilious complexion into one of radiant whiteness; while on the neck, hands, and arms, it bestows a delicacy and fairness which its continued use will happily protect, with every appearance of youthful charm to the most advanced period of life.

WEDNESDAY, JUNE 23, 1847.

BY O. L. JACKSON, DT-THAMES ST.

FROM VERA CRUZ.—The steamship *Fanny*, has arrived at New Orleans with intelligence from Vera-Cruz to the 9th inst. Fever is reported as being on the increase, and the heat almost insupportable.

A large train left on the 5th instant for Puebla, with the mail, and three hundred thousand dollars in specie, under an escort of eight hundred men.

A letter from a naval officer belonging to the blockading squadron off Santander, dated 2nd instant, reports the inhabitants friendly. Commodore Perry was hourly expected when the expedition up the river would commence. Their operations would be to the Southward and Eastward.

GEN. TAYLOR'S ARMY.—News has been received at New Orleans from Monterey to the 24th ult. The health of the troops was improving, and no new cases of small pox had occurred.

Gen. Taylor's command now consists of the 2d Mississippi, the Massachusetts, the Virginia, and the North Carolina regiments of Volunteers, the Texas Cavalry, the 10th and 16th regiments of Regular Infantry, a detachment of the 2d and 3d Dragoons, with the batteries of Washington, Dragg and O'Brien.

—We had the pleasure, yesterday morning, of greeting, in our office, Mr. Randall, of the Warren Star, and Mr. Shaw, of the Providence Transcript. We wish all the men we meet with in our intercourse with the world were like these.

—A number of vessels are at present detained in this harbor for fishing for mackerell under a codfish license. A forfeiture of the vessel, with all the fish she may have, is the penalty. The matter is being investigated.

which is being enlarged by Messrs. Wood- en & Peabody, is fast progressing. It will be a large and convenient house, and an ornament to the town.

—The Massachusetts did not arrive from New York yesterday morning, till about 8 o'clock, on account of the fog. Golf furnished us with papers brought by her.

The Crows.—Reports from all parts of the country state that the prospects for an early and abundant harvest are very flattering. We have made enquiries of several farmers on this island, and they say that from the present appearance of things, they doubt not but their crop will turn out well. There is every prospect of an abundance of fruit.

The Baltimore Sun says that they hear a good report from all parts of Maryland in regard to the prospects of the husbandman. The crops in that vicinity are very promising—more so than usual.

The Middletown (Md.) Whig, says that their farmers have had a delightful season so far, for making hay. The grain harvest will be ready to cut in a few days.

The Milwaukee Sentinel says:—We are happy to hear good accounts of the wheat crop from a very large portion of our territory.

The Concord Sentinel says that the late rains have ensured heavy crops of grass, and the grains and roots are very promising. The fruit promises well, and is now deemed secure from frost.

The New Orleans Picayune of the 12th inst. says: "A gentleman who has recently been in some of the country parishes says the Irish potato crop never promised to be so abundant, and the quality of those which have been dug is pronounced better than any ever grown in the State."

The Charleston Mercury says: A gentleman just from the upper section of the State informs that the crops of cotton and grain, though three or four weeks later than usual, in consequence of the backward spring, look vigorous and thriving.

Papers from the Western part of the South of Maryland reports the crops as being excellent. The Hagerstown News says: "It is now confidently predicted that there will not only be a larger crop of wheat in this country this year than last, but it will be of superior quality."

And thus we might go, a making extracts, but the above will suffice to show that reports circulated by speculators, in regard to short crop, are all humbug.

RHODE ISLAND LEGISLATURE.

SECOND SESSION.

Tuesday Morning, June 22.

The House met at 10 o'clock. The Speaker in the chair.

Two members elect from Providence and one from Jamestown presented their certificates and were duly engaged.

The House being organized the Senate was invited to join the House, and open the session with prayer.

The Senate joined the House and the Throne of Grace was addressed by Rev. Mr. Brewster, rector of Trinity Church.

The two bodies separated.

The Docket of unfinished business was then read.

Mr. Ballou, of Cumberland, arose to a question of a personal nature. He called the attention of the House to the fact that he had opposed the motion of the gentleman from Providence, (Mr. Ames) in relation to the disposition of certain votes for Representatives to Congress, attached to the tickets for General Officers. The Providence Journal had reported him as advocating the measure, and upon reference to the books of the House he found it was so recorded there. He wished to have the error in the records of the House, corrected.

Mr. Hildren, presented a Bill relating to Gunging and Gangers. Referred to the appropriate Committee.

Petition of Engine Co. No. 9, of Providence, for leave to increase the number of its members, was referred to the Committee on Corporations.

The House voted to take up the Docket of unfinished business on Thursday.

The House adjourned to 3 o'clock.

Afternoon.

The House met at 3 o'clock. Sundry accounts against the State were presented.

One of the members elect from Warren presented his credentials and took his engagements.

Petitions of Mary L. Ruggles were referred, one to the Committee on Judiciary, and the other to the Committee on Corporations.

Petition of Wm. C. Gibbs *et al* in relation to the passage of act relative to the limiting of the liabilities of corporations for manufactory purposes, and Petitions from Warren and Bristol on the same subject, were referred to the Committee on Corporations.

Petition of certain citizens of New Bedford touching on the rights of Jonathan M. White, Committee on Councils petitions.

The Com. on Corporations reported a bill in relation to the liabilities of Corporations. [The principal features of this bill are the same as the Act of Massachusetts for the same purpose, and provides that the private property of stockholders shall not be liable for the debts of a corporation beyond the amount of the stock taken. The bill has been strongly drawn up, but were great that a provision which appears in the Massachusetts Act, has not been introduced into it. The feature to which we allude, is one which provides that every manufacturing company shall furnish annually, for publication, a complete statement of its assets and liabilities; this our banks are required to do and there is no reason why other corporations should be exempt. With this amendment the Bill will be perfect, and while the operation of the Act will greatly facilitate manufacturing purposes, it will also protect the public from fraud. Such a measure has been much needed in this State.] The report was received, passed to a second reading, and was ordered to be printed.

Memorial from the Board of Aldermen of Providence for a revision of the "Poor Law." The Memorial was accompanied by a Bill, which provides that any owner, master or officer of any steamboat or vessels bringing any poor persons into this State, shall give bond that no such poor person shall become a charge to any town or city under five years after their arrival in the State. Railroad Companies are liable under the same provision, and are also required to furnish a schedule of the names, age, and sex of every poor person conveyed by them into any town or city in the State; and for every day's neglect to furnish such schedule, shall forfeit and pay the sum of twenty dollars, and in addition, shall be liable for all expenses which such persons shall occasion the town where they are left. The bill was read twice and referred to the Com. on Judiciary.

A bill providing for taking an estimate of the taxable property in this State. Referred to Com. on Judiciary.

Petition of Wickford Fire Co. Referred to Com. on Corporations.

Petition of Central Baptist Church, Newport. Referred to the Com. on Education.

The House adjourned to to-morrow at 10 o'clock.

ANOTHER SHIPWRECK.—The writing desk and papers of Capt. Shorey, of bark Mary B. Oliver, with the bills of lading for Cork, signed at Philadelphia, May 6, were found the 22d in the water at Kinocket Banks, Hyde Co., N. C., from which it is inferred that that vessel had been lost off Cape Hatteras. The Mary B. Oliver belonged to Portsmouth, N. H., and was a fine vessel, on her first voyage. She was insured in State street to the amount of \$30,000, at the following offices; Washington \$8000, Boston \$8000; Neptune \$14,000.

Gen. Gideon J. Pillow has published a reply to the card of the officers of the 2d Tennessee regiment assailing him for his conduct at the battle of Cerro Gordo. The opposition have been rather too ready in their desire to sacrifice Gen. P. Of his reply the Pennsylvanian says:

"It is bitterly and fearlessly written, and with an ability that cannot fail to make an impression by whomsoever read. There is a spirit of manly defiance in it that speaks of the true soldier, and the intimate acquaintance which it displays, not only with military science, but of the nature of the ground, and the character of the battle on the heights of Cerro Gordo, cannot fail to go far in the gallant general's vindication."

PONTON BRIDGE.—A floating bridge, or bridge supported by pontoons, has been erected over the Cuyahoga river, between Cleveland and Ohio City, in place of a bridge which was swept away last winter by a freshet. The Cleveland Herald states that the new bridge is twelve feet above the water, and rests upon five pontoons, or flat bottomed boats, its whole length being 200 feet. It is so constructed, that one man can in three minutes, with a windlass, swing around 145 feet of it for the passage of vessels.

—Within the last four months, 129 factories and mills of various kinds, have been destroyed by fire in the United States. This is more than one a day. During the same period, only 15 factories and mills have been burnt down in Great Britain, though they are much more numerous there than in this country. The disparity in incendiarism or carelessness, must be very great to account for such a difference.

—The corner stone of the proposed great Washington Monument in the city of New York, is to be laid on the 19th of October next, the anniversary of the capitulation of Cornwallis. It is to be erected in the centre of Hamilton Square.

—An exchange paper tells of a person who prefaced his sermon with, "My friends, let us say a few words before we begin." This is about equal to the chap who took a walk before he went to sleep.

—A young lady, at an examination in grammar, was asked why the noun "back-slash" was singular. She replied immediately, with much naivete, "Because it's very singular they don't get married."

MECHANICS' INSTITUTION.—In Great Britain there are at present Four Hundred Institutions of this kind, comprising eighty thousand members, and possessing about 400,000 volumes! The members raise annually, about \$30,000 and occasion the delivery of nearly 40,000 lectures.

—Gothic furniture is all the rage now in Europe. The Art Union Journal contains engravings of six different chairs that look sufficiently antiquated to suit the most fastidious. Some of the specimens were suggested by originals still to be found in the old castles of Germany.

—A formal invitation has been sent by the Queen to Mehemet Ali, who, it is said, intends paying a visit to England next year, if the state of his health and affairs will allow him to leave Egypt.

—The latest accounts from Monterey state that Gen. Taylor has but 3000 troops with him.

—The Pensacola Gazette of the 12th instant says that the Marine corps stationed there were ordered to active service, and no doubt, would sail immediately.

—Barker Burnell having obtained bonds, has been released from prison.

—Mrs. Polk will not accompany the President on his Northern tour. She will leave for Tennessee, on the same day, in company with her niece, Mrs. Rucker.

DORCHESTER, Mass., June 15.

Dr. P. Brown.—Dear Sir:—It affords me great pleasure to be able to bear testimony to the valuable properties of your Sarsaparilla and Tomato Bitters. You probably remember the situation I was in when I commenced using them by the advice of my friends; the suffering which I have borne for a long time from the effects of a most terrible humor is almost indescribable; it covered my chest and arms, breaking out at times in quite large sores. Medicine after medicine did I try, without the least relief, and I gave up ever expecting to be cured; but at last I was persuaded to make use of your Sarsaparilla and Tomato Bitters; but I must say I commenced with great reluctance, thinking it would eventually fail to relieve me, as all other medicines had done. But how happily have I been disappointed. It has entirely cured me. Nothing that I do affords me more pleasure than recommending your Bitters to persons similarly afflicted, and I do most earnestly recommend all to try them before they give up, supposing there is no relief. I now value them so highly I keep them in the house, and use them in my family, as I consider them the best, pleasantest, and most thorough medicine now in use, removing all impurities, carrying off all bile, without weakening the system, or being obliged to change your diet.

After showing this to any one, if they are not perfectly satisfied, ask them to call on me, and I will explain my case more fully, which it will afford me great pleasure to do.

Yours respectfully, DANIEL PLUMMER.

June 18. Dear Sir,—I take pleasure in communicating to all whom it may concern, and the public generally, the astonishing effect your truly wonderful medicine has had upon me. I have enjoyed perfect health for four or five years. Physicians told me that my liver was diseased, and that I might some day die with consumption. Last September, 1845, I took a slight cold, which produced a hacking cough; this continued until February, 1846, when I added another cold: my cough increased, I soon lost my appetite, and my strength failed. For six weeks I could not lie upon one side: I sweat very much nights, raised considerable blood during the winter, and could not speak aloud for two weeks. With all these bad symptoms, I had very severe pain in my side and between my shoulders: general debility followed. I was confined to my room about eight weeks. I had buried a sister and brother, both died with the Consumption. I expected to die myself; my friends also despaired of my life. At this time an uncle, who had been benefitted himself, advised me to take WISTAR'S BALM OF WILD CHERRY.

I accordingly procured a bottle, took it, and felt some better; obtained another, and a third; then I ceased to bleed and my cough was much better; but my disease was so deeply rooted, I was obliged to continue taking the Balm until I had taken seven bottles. I can honestly and truly say, I believe Dr. Wistar's Balm of Wild Cherry saved my life.

We are personally acquainted with Mrs. Gould—assisted in taking care of her during her sickness, believe and know the above statement to be true.

Like other silly folks, they abused it; And, though their hair was once gray, harsh and dry One FIFTY CENT bottle they used, and thus they

The world to show lovelier hair. Then, who with had will live.

Honestly and truly, there never was as good, or half as good, an article made to force the hair to grow dark, stop falling off, cure the scurf or dandruff, and make red or gray hair dark; it dresses the hair beautifully, and keeps it moist, soft, and silky, three times as long as any other article made.

Rev. R. Hibbard's Vegetable Anti-Billious Family Pills.—Ask for the Rev. R. Hibbard's Vegetable Pills, and be careful that a spurious article is not imposed upon you, under the name of Hibbard's Pills.

Dr. Banning's Patent Body Lotion, For Weakness of the Body.

The following letter is submitted to a discerning public, and the proprietor is enabled to refer to many individuals—whose testimony will satisfy the most incredulous. Do particularly get Banning's Lotion, and be put off with nothing else.

Wanted, August 22, 1846.

Dr. Boardman.—Dear Sir:—Now being about leaving for home, I am able to give thus far a favorable account of the Lotion which I have worn only four days. For more than four years I have suffered greatly from dyspepsia, that scourge of our race. My food has always been so troublesome that my stomach would reject it almost every day—my bowels always constipated—my head always feeling heavy and unpleasant, and my spirits greatly depressed. I was unfitted for any regular business, and till I saw you, I had given up the hope of ever being better. I had consulted many physicians and in Boston, those the most celebrated, and spent nearly all the money I could earn, upon them and medicines. Since I have worn the Lotion, all these symptoms have in a great degree vanished, and now, it seems to me, I shall be well again. I find my body regaining its erect position—the spitting up my food is pretty much over, my spirits and energy are returning, and I feel like a new man.

THE BEAUTIFUL YOUNG LADY OF BROOKLYN AND RADWAY'S CHINESE MEDICATED SOAP.—Last fall we published a letter from a young lady in the city of Brooklyn, who, while on a visit to her friends in New Jersey, had experienced intense pain from the bites of musquitoes, and great annoyance from the unnatural darkness of her tanned complexion. Her skin had become parched, dry, and unhealthy—covered with pimples, blotches, pustules, freckles, &c., she was recommended by some friends to use, as a toilet emollient.

Radway's Chinese Medicated Soap.

A few days' use of this very excellent and superior Soap exceeded the expectation of all; her skin became smooth, soft, pure, sweet, and healthy; her complexion restored to its former pleasing appearance, all of which owed its restoration to the curative properties and soothing influence of Radway's Chinese Medicated Soap.

This is but one out of thousands of others, who prefer the use of Radway's Soap to all other soaps recommended for the same purposes. We do not pretend that our Soap will restore the complexion of the emaciated victim of consumption to the bright hue of health, as some of our competitors vainly claim, and promise to do; but we do pretend to say that Radway's Chinese Medicated Soap stands unrivalled in the productions of Chemists for the purposes for which it is recommended, and is a superior article to the Euc Divine de Venus and Nymph, (which is introduced to the public by our own matter, which the proprietor of that article has ungenerously copied from one of our Circulars of 1845, without our permission, slightly altering the phraseology of our language to suit his own purpose,) or any other Soap in the market. Now we leave the public to judge for themselves. Do you wish to possess a fair, healthy pure, and sweet skin, free from all spots, blemishes, freckles, pimples, blotches, pustules, ring worms, &c? use the genuine Radway's Chinese Medicated Soap, which is warranted by us to do all that it is recommended. This soap is sold cheaper than any other article of the kind in the market, and for ordinary toilet purposes it will do more service than other Soaps of three times its bulk. Sold for only ONE SHILLING per cake, by R. J. TAYLOR, C. G. C. HAZZARD, and B. H. TISDALE, Newport. Country Agents can be supplied by R. J. Taylor.

Ladies are Cautioned
AGAINST using Common Prepared Chalk.—They are not aware how frightfully injurious it is to the skin how coarse, how rough, how yellow, and unhealthy the skin appears after using prepared chalk! Besides it is injurious, containing a large quantity of lead!

We have prepared a beautiful vegetable article, which we call JONES' SPANISH LILLY WHITE. It is perfectly innocent, being purified of all deleterious qualities; and it imparts to the skin a natural, healthy, alabaster, clear, living white; at the same time acting as a cosmetic on the skin, making it soft and smooth.

Dr. James Anderson, Practical Chemist of Massachusetts says:—"After analyzing Jones' Spanish Lilly White, I find it possesses the most beautiful and natural, and at the same time innocent white I ever saw. I certainly can conscientiously recommend its use to all whose skin requires beautifying."

Price 25 cents a box.

A Fine Set of Teeth for 25 cts.
YELLOW and unhealthy teeth, after being once or twice cleansed with JONES' ASHER TOOTH PASTE, have the appearance of the most beautiful ivory, and, at the same time, it is so perfectly innocent and exquisitely fine, that its constant daily use is highly advantageous, even to those teeth that are in a good condition, giving them a beautiful polish, and preventing a premature decay. Those already decayed it prevents from becoming worse—it also fastens such as are becoming loose, and by perseverance it will render the foulest teeth delicately white, and make the breath deliciously sweet.

Miracle.

ON the 4th of August, in the year 1813, a singular scene occurred in the Royal Scientific Institution of France. The aged, white-headed President, his head bare, his arms outstretched, his face radiant with smiles, (for science was triumphant,) and his voice with gratulatory tone, delivered the following report:

"We are astounded at this singular preparation. Where indeed will science stop! Here we have a preparation made in the form of a beautiful piece of soap, which we know by actual practice, to cure every cutaneous eruption, every disfigurement of, and even discolored skin! Where will its magic and singular power cease? The Negro, the Creole, the Yellow Race of the East, and the Red Man of the far West, are alike under the influence of its extraordinary powers of clearing yellow or discolored skin, and making it white and beautiful, and of changing the color of dark, or black, or brown skin." (Here several persons were brought forward by the President, who had used it, in proof of his assertion.)

"There are probably few persons of intelligence, who, after reading the above, will doubt the qualities of JONES' ITALIAN CHEMICAL SOAP, in curing Pimples, Blisters, Salt Rheum, Scurvy, Erysipelas, Sore Heads, Old Sores, Beard and Barber's Itch, Chapped and Tender Flesh, Freckles, Tan, Sunburn, and changing dark sunburn or yellow skin to a pure, clear white, as smooth and soft as an Infant's, and in fact every kind of eruption and disfigurement. Read these certificates:

[From the N. O. Sentinel, Oct., 1841.]
One of our subscribers, Mr. H. Leonard, informs us that he has been cured of old, scaly Salt Rheum, of eighteen years standing, on his head, fingers and hands, by a cake of an article, much advertised lately—we speak of Jones' Italian Chemical Soap. He also informs us that he has tried its effects on his female slave Rose, much marked with sun spots, and he found in two weeks her skin much clearer and whiter.

James Elliam, a painter in Jersey City, was cured of carbuncles and pimples, which he was afflicted with for many years, by part of a cake of Jones' Italian Chemical Soap.

Persons in purchasing this must always ask for Jones' Italian Chemical Soap; and perhaps, as many who have been cheated with counterfeits, will be too much discouraged to try the genuine, we say to such, try this once—you will not regret it; but always see that the name of T. JONES is on the wrapper. For sale in Newport by

Mr. William Jackson, of 80 Liberty street, Pittsburgh, Pa., certifies: On the 3d of February, 1847, that Mr. Thomas Jackson's head, on the top, was entirely bald for 15 years, and that by using two 3s. bottles of Jones' Coral Hair Restorative, the hair is growing fast and thick, and will soon be entirely restored.

Gray Heads! Gray Heads! Read—I hereby certify that my hair was turning gray, and that since I have used Jones' Coral Hair Restorative, it has entirely ceased falling—is growing fast, and has a fine dark look. Before I used Jones' Coral Hair Restorative, I combed out handfuls of hair daily. WM. TOMPKINS, 92 King-st., N. Y.

Mr. Power, a grocer of Fulton-st., had his hair choked up with dandruff, and Jones' Hair Restorative entirely cured it.

Do you want to dress, beautify, and make your hair soft and fine? Read—I, Henry E. Cullen, late barber on board the steamboat South America, do certify that Jones' Coral Hair Restorative is the best article I ever used for dressing, softening, cleansing and keeping the hair a long time in order; all my customers preferred it to anything else.

TO THE LADIES IN PARTICULAR.
MY DEPILATORY POWDER has been found highly beneficial and of great use to ladies who have been afflicted with superfluous hair, principally when its growth has been confined to the upper lip and side of the face, giving a masculine turn to the whole features. When used with proper care, and according to the directions, it will be found to be a great addition to the toilet, as the use of any sharp instrument is entirely avoided, and the hair is removed in five or ten minutes after its application.

This composition is infallible, and warranted to remove superfluous hair. After numerous trials, I have received certificates of success which cannot be contested. For sale, wholesale and retail, at

LORRAINE'S PILLS.

All persons require Facts.

DR. LORRAINE'S CURATIVE SYSTEM OF MEDICINE is rapidly producing achievements never before known in the cure of diseases. The immensity of its wonderful results, alone demonstrate that its principles must be founded on truth. The relative proportion of Cures by this Medicine is out of all proportion greater, than by any other Medicine known.

THIS THEORY is, that one blood beats in the system, and flows through the body of every man, and must be pure, it is the Vital Principle that sustains life.
Physicians, and people of every class are willing to come forward and announce, in the most public manner that they have been cured of long standing complaints—after another medicine had failed. In fact there can be no doubt but that Lorraine's vegetable Pills is the best medicine ever offered to the public.
See a few public statements of men of truth and virtue.

Lynn, Dec. 17th, 1843.
Sir: I have sold all the pills I last had of you, please send another lot immediately. The sale of Lorraine's vegetable Pills is rapidly on the increase, they are becoming very popular. I sell more and more every day. As a curative medicine and purifier of the blood, I think they stand unrivalled. One fact I have noticed, that no one that has used them finds any fault with them; they have wrought some very great cures. One lady, who has been confined to the house and bed, a great part of the time, for twenty years, is now cured and able to work most of her time, after having taken 3 boxes only of Lorraine's Pills! I might name many other cases where the cures have been as great, but have not time.
Yours respectfully,
J. E. F. MARSH.
Portland, Me., Nov. 7th, 1843.

Sir: Please send us one gross of Lorraine's Pills, we have sold all we had last. They have given very good satisfaction, better than any other pills which we have in our market. I think in a short time they will take the place of others. We have had no fault found with them; whatever, but, on the contrary, they have been praised loudly. I think we could have quite a number of highly respectable certificates from our citizens.
Yours respectfully,
E. MASON.
Chelsea, Jan. 3d, 1844.

Sir: I transmit to you an account of my case for publication, believing it to be my duty. I have been confined with the Rheumatism nearly the whole winter, have had some of the best physicians of Boston and could get nothing that would relieve me more than temporarily. I heard of the wonderful virtue of Lorraine's Pills, I had no faith whatever, but I took them, and it is a solemn fact that when I had taken but eight pills my Rheumatism had entirely left me, and I have remained well ever since.
N. B. I never took more than one pill at a time and that on going to bed.
Yours respectfully,
W. M. HALSTAL.
OPINION OF A SKILFUL PHYSICIAN.

Sir, the operation of Lorraine's Pills is past any philosophy to find out, how so small a Pill can produce such wonderful effects. I find that one of them will operate more than 3 or 4 of any other Pill, yet in their operation, mild, gentle and comforting. On this account, they are more than 100 per cent, cheaper, as physis, than any other Medicine I know of.

These Pills are now acknowledged by thousands who take them daily, to be the only medicine that fairly takes the Banner from all others. This extraordinary medicine has actually done wonders within one year past. They cause no pain or uneasiness of any kind in their operation, and require neither change of diet or care of any kind.

The attention of the reader is respectfully called to the important results from the use of these Pills. It will be seen, however great achievements have heretofore been made by the use of this invaluable medicine, still greater and more remarkable cures daily happen.

Bogle's Hyperion Fluid; Or Vegetable Hair Composition.

THE subscriber has been induced to bring this article before the public, at the request of his numerous customers, among whom are physicians and citizens of the first respectability, who have adopted its use in their families, and wish others to participate in its advantages.

The Hyperion is composed of vegetable ingredients, the secret of compounding and blending which is known solely to the subscriber. It is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture never before attained, yet free of animal grease or essential oils. It clears the pores of the skin, causes a healthy action in the blood vessels, nerves, &c., which feed the hair, thereby preventing BALDNESS AND GREY HAIR.

It entirely frees the skin from Scurf, Dandruff, and other cutaneous diseases, disposes the hair to curl, and changes the hardest hair into the most soft, glossy, and healthy state, also imparts to it a darker color, and the free use of it, both on the skin and hair, in a most healthy and luxuriant state until the latest period of life.

Ladies will find the Hyperion a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the fluid, can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads, it lays the foundation of a good head of hair.

Manufactured and for sale by **WM. BOGLE**, 228 Washington, corner of Summer street, Boston. Sold in Newport by **R. J. TAYLOR.**

A Treatise on the Anatomy and Physiology of the Hair, with directions for preventing baldness, removing dandruff, and preserving the natural beauty and softness of the hair, by **WM. BOGLE**, accompanies each bottle. Aug. 24—ly.

TO THE AFFLICTED.

DR. BANNING'S PATENT LACE!

An immediate Relief to Incipient Consumption, the Bronchitis of Public Speakers, Palpitation of the Heart, Dyspepsia, Spinal Weakness, Piles, Protrusion, and Diseases of Women, without Medicines.

THIS instrument has been examined by Drs. Mott, Rodgers, Francis, and Griscom of New York, the faculty of Pittsburgh, Hartford, New Haven and Middletown, and has obtained for itself their favorable testimony. The following will show what kind of testimony might be produced in many cases:
Middletown, June 25th, 1843.

Dr. Boardman,
Sir—In answer to your inquiry respecting my case, I will merely say, that I have been sick since I strained my breast and loins in May, 1836, from that time continued to grow worse, when in the fall of '39, I abandoned business, and have not done any thing since. I suppose from all I could learn about my case—frequently raising blood, coughing very hard and expectorating profusely, deriving no benefit from my physicians, and all medicines recommended to me, that my case was hopeless. Last winter my brother told me he had heard a good account of Dr. Banning's Lace in such cases, and was anxious that I should try it; accordingly I procured one from you, and since I began to wear it, my breathing, which was very short and laborious, has become easy and natural; the pain and fluttering or palpitation of the heart has subsided; cough and expectoration greatly lessened, my limbs which were exceedingly painful have become useful, so that I can walk comfortably. I am able to shave myself with comfort, which for many years I have not been able to do. The pills, which have troubled me for nine years, are nearly eradicated. I work some in the garden, and am able to ride 4 miles at once with pleasure and benefit.
Yours, &c. **WM. RANNEY.**
Dr. G. M. Boardman,
Middletown, June 25, 1843.

Dr. Boardman,
Dear Sir—In answer to your inquiries respecting the effect of Dr. Banning's Lace in the case of my wife, I will state that twenty years past, she has been afflicted with a complication of complaints to which females are subject. She has tried all the physicians and all the medicines recommended for such complaints, without regard to expense, and found only temporary relief. Her most distressing complaints, palpitation of the heart, oppression and a sense of great weight at the pit of the stomach, prolapsus of the womb, &c., were believed after wearing the lace two hours, and she has continued to improve daily. With this view of the case I cannot use language strong enough to convey my approval of the instrument.
aug. 23rd.
STEPHEN BROOKS, JR.
Providence, Feb. 25, 1846.

Doctor Boardman,—Dear Sir—I now take my pen to inform you that my wife's health has improved very fast for the last two weeks from wearing one of your Laces. She has been out of health about two years and has worn a different Supporter from yours, which had only two pads. She received some benefit from that—but it would not produce a cure. But now I can say with pleasure that she is as smart as any of the young girls in the neighborhood. She can now run up and down stairs as fast as I can, and I feel so well pleased with it that I hardly know how or what to write. But one thing I do now, that she has been under the care of seven Doctors in one year—and wearing your Lace two weeks has or will do the cure in a very short time. I want to write more, but I have no time. I am truly, your friend and well wisher.
Doctor Boardman, proprietor of Bannings celebrated Patent Body Brace, for this state, has taken rooms at No. 8, Broad street, where he may be consulted, free of charge. He is enabled to treat, successfully, cases of Rheumatism, Neuralgia, Headaches, Deafness, loss of Voice, Bronchitis, Weakness and curvatures of the spine, and chronic diseases generally. He is enabled to refer to numerous cases in Providence, and this town. aug 28

Interesting to Every Female.
All Diseases and Complaints peculiar to the Female Sex, yield to the powerful influence of
DR. H. L. REE'S PERSIAN FEMALE VEGETABLE PILLS.

THE Persian Female Vegetable Pills, are the only sure, safe and efficacious remedy for the cure of those complaints which females only are subject to. Free from all preparations of Mercury, Calomel, Antimony, &c., but compounded of ingredients of the most intrinsic medicinal value, they act effectually upon the whole system, without injury to the future health of the patient. They give strength for weakness, health for sickness, ease and enjoyment of life, for pain and misery. To the drooping maid, who has long been suffering from the effects of monthly irregularities, obstructions of the menses, unnatural flows, leucorrhoea, flour albus, &c. They impart the bright hue of health upon her cheek, and renew again a sound mind in a sound body.

From a young lady.
Dr. H. L. Ree, Sir:—I was recommended to use your 'PERSIAN VEGETABLE FEMALE PILLS' by my Family Physician Dr. Quackenbush, who had witnessed their good results. I have been troubled for many months with weakness, loss of appetite, obstructions, and irregularities and found no relief till I commenced using your valuable Pills—I wish every one of my sex knew by experience their intrinsic worth.

As a Strengthening Plaster, individuals who have laid upon a bed of sickness and suffering for months—who have become so weakened and wearied of life that death would be a blessing, have by the means of this Salve spread as a plaster and applied according to directions to the parts affected, been strengthened and restored back to life—blessing the Salve as the only remedy by the grace of Providence by which they were saved. Reader, are you afflicted with any of the above diseases—have you tried other remedies without effect—have you been pronounced incurable—if so, try this Salve—if nature can furnish means to cure you, you will be cured by the use of COON'S German Salve and Vegetable Pain Extractor.

Extract of a letter from Hon. Harman Knickerbocker, Esq., late First Judge of Rensselaer Courts, M. C., &c., Schaghticoke, N. Y.
I was myself attacked with a severe pain in my ankle and leg, and swelling ensued to an enormous extent, my physician could not relieve me, after suffering severely a number of days and an increase of pain and suffering I was considered dangerous; at this crisis my wife prevailed upon me to try a plaster of this salve which I did, and in half an hour I became easy and rested well. I continued this application and in a few days I was well. It cannot but prove a blessing to mankind, if they can be furnished with it.
